

Major Contractor Contacts April 2007

**De Beers Canada Snap Lake Project
Major Contractor Contact Information
for Employment Opportunities
as of April 9, 2007**

The Snap Lake Project is now in the construction phase and is scheduled to open for commercial production in October 2007. The construction of the mine will provide a number of new employment opportunities. Most employees working at the Snap Lake Project site will be employed by contractors during this time. For those currently seeking employment at the Snap Lake Project, attached is a listing of our major contractors and their employment contact information. This list will be updated on our website at www.debeerscanada.com as major contracts are awarded. For those interested in seeking permanent employment with De Beers Canada, current job postings are available on our website.

De Beers Canada is committed to recruiting and hiring as many Northwest Territories (NWT) residents and Aboriginal people as possible during both the construction and commercial production phases of the Snap Lake Project. As part of De Beers' dedication to hiring and developing an NWT and Aboriginal workforce, hiring practices are in place to achieve a hiring objective of 40% of employees from the NWT during construction and 60% during production. Contractors are also required to understand, comply with and report on their success regarding NWT hiring priorities as established by the Socio-Economic Agreement (SEA) with the Government of the Northwest Territories (GNWT).

For additional information regarding the Employment Opportunities at the Snap Lake Project, please contact our Human Resources Department by fax at (867) 766-7347 or by email at hr.snaplake@ca.debeersgroup.com.
